EXPERIENCE

Full-Stack Web Developer Intern <i>Premac-AI – AI-powered productivity and automation startup</i>	May 2025 – Oct 2025	Remote
<ul style="list-style-type: none">Developed frontend and backend features as part of full-stack workflows using modern web technologiesDesigned, consumed, and tested RESTful APIs with focus on clean code, debugging, and maintainabilityCollaborated with team members on AI-enabled features and build communication and development practices		

PROJECTS

Pipoo – AI Voice Desk Assistant <i>Python, AI APIs, Voice Recognition, SQLite</i>	Jan 2026 – Present
<ul style="list-style-type: none">Designing and developing an AI-assisted desktop voice application focused on productivity and task managementImplementing voice-based interaction using speech-to-text and text-to-speech APIs for natural language commandsBuilding features such as reminders, notes, and local task storage using SQLite, with ongoing improvements to system architectureGithub Repository Link: https://github.com/Beautymaurya28/Pipoo-Clearity-AI	
Learnex – AI-Driven Learning Platform <i>React, Node.js, MongoDB, REST APIs</i>	Sep 2025 – Dec 2025
<ul style="list-style-type: none">Developed a backend system for an AI-assisted learning platform using RESTful APIsImplemented user authentication, content management, and role-based access controlIntegrated basic AI features to support learning assistance and content interactionGithub Repository Link: https://github.com/Beautymaurya28/learnex	
School Touch – Digital School Management System <i>React, Node.js, MongoDB</i>	Feb 2025 – May 2025
<ul style="list-style-type: none">Built a full-stack school management system to manage students, teachers, attendance, exams, and fee recordsDesigned and implemented REST APIs and frontend dashboards for different user rolesImplemented secure role-based authentication and authorizationGithub Repository Link: https://github.com/Beautymaurya28/SchoolTouch	

CERTIFICATIONS

Python for Data Science, AI & Development – IBM/Coursera
Full-Stack Development – Simplilearn
Cloud Computing – NEPTEL

TECHNICAL SKILLS

Languages: Python, JavaScript, C++ (Basic)
Frontend: React.js, HTML, CSS
Backend: Node.js, Express.js, Flask, REST APIs
Databases: MongoDB, SQLite
Core Concepts: Data Structures & Algorithms (Basics), Full-Stack Development, API Integration, Debugging
AI & ML: Prompt Engineering, AI Tool Integration, AI-Driven Feature Development

ACHIEVEMENTS & LEADERSHIP

- Awarded for Real-World Case Study Analysis, recognized for data-driven problem analysis and practical solution design.
- Contributed to open-source learning by documenting project architectures and sharing implementation insights.
- Selected among top 10 teams in the Web-A-Thon Hackathon by building a Smart Note Summarizer and Quiz Generator application.

EDUCATION

Lovely Professional University	Punjab, India
<i>Bachelor of Computer Applications (BCA) - CGPA: 8.4</i>	Aug 2023 – Aug 2026
National Inter College	Bihar, India
<i>Higher Secondary Education (PCM)</i>	2021 – 2023
